

Dear mentor,

As you know, the Exhibition unit is an opportunity for us to assess all areas of the PYP. We have selected a variety of ways to do this, focusing on what we hope is the most appropriate and effective. As part of this assessment could we please ask you to provide a written comment for each of the children in your mentor group? It would be very helpful if you could focus this on the selected areas of the trans-disciplinary skills outlined below. You could write each in the third person ('Mark has....'), but this will of course be shared with the children themselves as well as their parents. Thank you.

Self management skills criteria:

Organisation – planning and carrying out activities effectively

Time management – using time effectively and appropriately

Informed choices – selecting an appropriate course of action or behavior based on fact or opinion

Thinking skills criteria:

Comprehension – grasping meaning from material, communicating and interpreting meaning

Application – making use of previously acquired knowledge in new or practical ways

Dialectical thought – considering more than one point of view
